High School Online Dual Enrollment

Landmark College offers a unique approach to online dual enrollment for students who learn differently.

**PERSPECTIVES IN LEARNING**

**Flagship Strategies Course**

This 3—credit course helps build self-awareness, critical thinking, and self advocacy skills.—central to success in any college environment.

**An Approach That Works**

Our model is guided by Landmark College pedagogies honed over three decades of working with students who learn differently. The program’s uniqueness derives from having a course liaison, a design structure that scaffolds executive function difficulties, and is personalized for individual learners.

**Course Advisor**

In addition to the course instructor, each course has an online or onsite course advisor. The advisor assists students in navigating the online learning environment and helps them stay on top of course assignments.

**Design**

Courses are developed following the conceptual framework of Universal Design and include embedded supports for executive function.

**Personalized**

Small class size helps customize the learning environment and make it personal. Each course has a maximum of 12 – 14 students per instructor and liaison.

**BUILD**

**GROW**

**SELF-ADVOCATE**

**CONNECT**

**COMMUNICATE**
